

## Hebrews 13:8: "Jesus Christ is the same yesterday and today and forever."

The Bible compares the earthly existence of mortals to those of field grass and wild flowers. They are there for one day and the following day they have gone already. We live in a world changing continuously, nothing is permanent, and nobody can provide certainty or security. The fact that you are in a hospital, means that your situation has also changed - and that this change is probably not pleasant.

But the Bible also teaches us of God, that He is the Everlasting, the Unchangeable. He is the loving one who sent his Son Jesus Christ to the earth to save us from our suffering and sins. Because of love Jesus died on the cross on our behalf. Because of love he resurrected and ascended to heaven to make room for us there. We also know that

he will return to take all the people who have been faithful to Him to his Father to live there forever. That which Jesus has promised, what He has done, is just as unchangeable as Himself. Thereby He will also give to you forgiveness of your sins to the full, and eternal, unchangeable life. What you have to do, is to ask it from Him in all honesty in prayer.

Approach him faithful, in sincere dependence, and pray to him to help you process the concerns you experience as a result of your changing situation. Allow him to calm down your confused and overburdened mind.

**WITHIN CHANGE  
THERE IS EVER-  
LASTING PEACE**
