

# THERE IS ONLY ONE CARING FATHER

**1 Petrus 5:7: "Cast all your anxiety on Him because he cares for you."**

Which person in hospital does not have anxieties and fears? Surely even you must worry and stress about your condition and the fact that you are in hospital. But what we must realise, is that all our worries do not change the situation in any way - rather our worries effect our chances of recovery.

While the doctors and nurses bring relief with their drips, pills and injections, the true and lasting peace of mind and permanent relief can only come from God. Only His saving words: "Believe in Me and you will have eternal live" (Acts 16:31) carry eternal value.

Within your pains and anxieties the only real help can come from Him. Through Jesus Christ God wants to be your caring Father. He wants to care for you better than any earthly father. Believe in Him and place all

your worries with Him.

The Father who wants to help you - and can help you - knows all about your aches and pains because. He watches over you the whole time, and His power is always more than sufficient for all our needs.

Therefore you do not have to feel alone, nor struggle alone with your problems. Give this heavy burden to Him in the name of Jesus Christ our Saviour. Believe and trust in Him and in his way be freed from these earthly sorrows.

God, the Omniscient, knows your pains and afflictions. He, the Omnipotent, will protect you. He, the Omnipresent, is with you always. Rely on Him alone.
